PROFESSIONAL SUMMARY

Computer Science graduate with strong foundations in software engineering, backend development, and cloud-ready application design. Experienced in building scalable REST APIs, modular backend systems, and full-stack applications using modern software engineering practices.

EDUCATION

ITER, Siksha 'O' Anusandhan (SOA) University

Bachelor of Technology (B.Tech), Computer Science & Engineering

2022 – 2026

CGPA: 9.33 / 10

Kendriya Vidyalaya Berhampur

Senior Secondary (CBSE - Class XII)

2021

Percentage: 93.66%

Kendriya Vidyalaya Berhampur

Secondary (CBSE - Class X)

2019

Percentage: 93.80%

PROJECTS

AgriTech Platform | JPMorgan Chase Code for Good Hackathon

- Collaborated within a cross-functional Agile team to design and develop a prototype AgriTech platform addressing operational requirements provided by NGO CML during the JPMorgan Chase Code for Good Hackathon.
- Developed backend services including REST APIs, authentication, Razorpay payment integration, chatbot functionality, and real-time communication following Agile software engineering practices.

AI Health Companion | Python, FastAPI, Streamlit, SQLite, REST APIs

- Developed a modular full-stack healthcare platform integrating secure authentication, REST APIs, AI-assisted health assessment, dashboards, PDF reporting, and persistent user data management.
- Engineered scalable backend services using FastAPI, SQLite, modular architecture, and AI inference pipelines emphasizing maintainability and performance.

GovAssist AI – AI Voice Assistant for Government Scheme Discovery | Python, Faster-Whisper, Gemini API, Edge-TTS

- Developed an AI-powered voice assistant enabling natural multi-turn conversations to collect citizen information, maintain conversational context, and determine eligibility for government welfare schemes through a deterministic rule-based decision engine.
- Engineered a modular conversational AI system integrating Faster-Whisper speech recognition, Gemini LLMs for intelligent information extraction and personalized scheme explanation, Edge-TTS speech synthesis, conversation memory, and explainable AI for transparent citizen assistance.

YelpCamp | MongoDB, Express.js, ejs, Node.js

- Developed a full-stack campground management platform featuring user authentication, authorization, CRUD operations, image uploads, reviews, and responsive user interfaces.
- Built scalable REST APIs using the MERN stack with secure session management, MongoDB data persistence, cloud-based media storage, and role-based access control.

SKILLS

Programming Languages: Python, Java, JavaScript, C/C++

Backend Technologies: FastAPI, Node.js, Express.js, Django, REST APIs, JWT Authentication

Databases: MySQL, MongoDB, SQLite, SQLAlchemy

Frontend Technologies: React.js, HTML, CSS, Streamlit

Cloud & Developer Tools: AWS, Git, GitHub, Postman, Firebase, Cloudinary, VS Code, Google Colab

Artificial Intelligence: Machine Learning, Deep Learning, Large Language Models (LLMs), Natural Language Processing (NLP), Computer Vision, Generative AI

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability

CERTIFICATIONS

Ultimate AWS Certified Developer Associate (DVA-C02) <i>Udemy – Stephane Maarek</i>	2025
The Web Developer Bootcamp <i>Udemy – Colt Steele</i>	2024
Code for Good Hackathon Participant <i>JPMorgan Chase & Co.</i>	2025
Adobe & NITI Aayog Student Mentorship Program <i>Atal Innovation Mission</i>	2020

PERSONAL DETAILS

Full Name: Subhankar Pandit
Father's Name: Sailendra Narayana Pandit
Father's Occupation: Section Engineer, Indian Railways
Mother's Name: Geetanjali Pandit
Mother's Occupation: Homemaker
Date of Birth: 19 November 2002
Gender: Male
Nationality: Indian
Category: General
Languages Known: English, Hindi, Odia
Current Address: Keshab nagar lane 4, Lanjipalli, Berhampur, Odisha, India
Permanent Address: Keshab nagar lane 4, Lanjipalli, Berhampur, Odisha, India
